Profile

Mechatronics Engineer with hands-on experience developing AI-powered robotics systems, embedded solutions, and computer vision applications. Experienced in ROS, Python, NVIDIA Jetson, Raspberry Pi, and AI model integration through academic, research, and industry projects. Passionate about emerging technologies, rapid prototyping, and transforming innovative ideas into practical solutions.

Experience

software engineer(full-time), *Taa-academy* 12/2025 – 06/2026

- Developed new features for an interactive engineering simulation platform.
- Collaborated with the development team to improve product quality and maintainability.
- Participated in solving technical challenges and delivering production-ready features.
- Deployed and maintained the application on AWS.
- Represented the company during technical events and demonstrations.
- Project: <https://www.taasandbox.com/> 📄

FABLAB TECHNICAL ASSISTANT(Intern), *Orange Jordan* 07/2024 – 10/2024

- Co-developed an underwater drone through orange summer challange featuring Ethernet communication, live video streaming, embedded control, and AI-based danger detection.
- Supported rapid prototyping using 3D printers, laser cutters, and CNC machines.
- Mentored student teams during robotics development.

Robotics Software Engineer(Part-time), 02/2024 – 10/2024
Jordan Design and Development Bureau (JODDB)

- Presented the MMDR project at SOFEX 2024, showcasing autonomous landmine detection capabilities.
- Trained a YOLO-based model with a custom dataset for landmine detection.
- Implemented sensor fusion and depth camera integration to improve detection accuracy.
- Developed robot navigation and visualized mapping results using ROS and RVIZ.
- Built a LAN-based control system for remote monitoring and operation.

Robotics Software Engineer(Part-time), *Basic Bionics* 06/2023 – 10/2023

- Enhanced the movement and navigation of an autonomous indoor delivery robot.
- Integrated Arabic voice interaction via Amazon Alexa for command-based robot control.
- Represented the company by presenting products at events and delivering workshops at universities.

Education

Bachelors in Mechatronics Engineering,
Al-Balqa Applied University Faculty Of Engineering Technology

09/2025

Volunteer Experience

membership development team leader 09/2024 – 08/2025
IEEE BAU student branch

membership development 08/2023 – 09/2024
IEEE BAU Robotics and Automation Society (RAS)

content writer for social media 09/2022 – 09/2023
IEEE BAU Robotics and Automation Society (RAS)

Certifications

- Foundations of Project Management-google
- Project Initiation: Starting a Successful Project-google
- Full Stack Web Development-HTUx
- AWS Certified Cloud Practitioner
- Full Stack Development Bootcamp (Fundev)-coderz for software and training
- Robot operating system (ROS)-IEEE

Awards

3Rd Place – Best Mechanical Design (Firefighter Competition)

Appreciation for Participation – Sumo Robot Competition

Appreciation for Efforts – Minesweepers Competition, Egypt

3Rd Place Winner – JODDB Creative Excellence Initiative

Skills

- Python
- Arduino programming
- ASP.NET core
- SQL
- Project management
- node.js
- OpenCV
- CSS
- NVIDIA Jetson
- C#
- Presentation Skills
- AWS
- HTML
- Embedded programming (stm32 on cube IDE, esp32)
- Embedded Systems
- C++
- Team management
- Communication skill
- Problem Solving
- Javascript
- ROS
- Sensors & Actuators
- Computer Vision
- Linux
- Git
